EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Andrew Tiajolloff on 7/9/04.

The application has been amended as follows:

The title was rewritten to read as follows:

Method for producing synthetic quartz glass members for excimer lasers and
~~synthetic quartz glass members for excimer laser optics produced by the same~~

Claim 11 has been rewritten to read as follows:

11. (Currently Amended) A method for producing a synthetic quartz glass member said method comprising:

a step of incorporating hydrogen molecules into a synthetic quartz glass body by heat treating the synthetic quartz glass body at a temperature of 600oC or lower in an atmosphere in a pressure range of 1atm or higher but lower than 150atm, said atmosphere containing hydrogen,

the pressure of the atmosphere containing hydrogen being varied either continuously or stepwise in at least a part of the heat treatment; and

wherein the pressure of the atmosphere containing hydrogen is decreased during said heat treatment in an amount in the range from 7.5atm to 75atm.

REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: the cited prior art fails to disclose or reasonably suggest a decrease in pressure of the atmosphere containing hydrogen during the recited heat treatment of claim 11. The cited references such as JP 03-088742 and US 6,094,941 disclose the heat treatment of synthetic glass quartz comprising a hydrogen containing atmosphere but fail to disclose or reasonably suggest a decrease in the pressure of said atmosphere during said heat treatment.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Carlos Lopez whose telephone number is 571.272.1193. The examiner can normally be reached on Mon.-Fri. 8am - 5pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Steven Griffin can be reached on 571.272.1189. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
